

AI-Assisted Development and Git Mastery Objective

Diego José García Delgado

Table of contents

- 01** **Repository initialization**
- 02** **Repository status**
- 03** **First commit**
- 04** **Branch change**
- 05** **Return to main branch**
- 06** **Upload of files**

1. Repository initialization

With "**git init**" we create the local git repository

```
PS C:\Users\DJGD0> git init
Initialized empty Git repository in C:/Users/DJGD0/.git/
PS C:\Users\DJGD0> █
```

2. Repository status

```
PS C:\Users\DJGD0\Entornos20> git status
On branch master
Your branch is up to date with 'origin/master'

nothing to commit, working tree clean
PS C:\Users\DJGD0\Entornos20> 
```

We check the status of our repository with "**git status**".

3. First commit

To add a new commit, first add the files to the repository with "**git add .**" and then make the commit with "**git commit -m Commit_Name**".

```
PS C:\Users\DJGD0\Entornos20> git add .
PS C:\Users\DJGD0\Entornos20> git commit -m "Initial commit"
On branch master
Your branch is up to date with 'origin/master'.

nothing to commit, working tree clean
PS C:\Users\DJGD0\Entornos20> 
```

4. Branch change

```
PS C:\Users\DJGD0\Entornos20> git checkout -b feature-update
fatal: a branch named 'feature-update' already exists
PS C:\Users\DJGD0\Entornos20> █
```

To change to another branch we use "**git checkout -b Branch_Name**".

5. Return to main branch

We do a commit in the new branch, and after we return to the main branch with "**git checkout main**" or master, in my case y did with master.

```
PS C:\Users\DJGD0\Entornos20> git add .
PS C:\Users\DJGD0\Entornos20> git commit -m "New commit"
On branch master
Your branch is up to date with 'origin/master'.

nothing to commit, working tree clean
PS C:\Users\DJGD0\Entornos20> git checkout main
error: pathspec 'main' did not match any file(s) known to git
PS C:\Users\DJGD0\Entornos20> git checkout master
Already on 'master'
Your branch is up to date with 'origin/master'.
PS C:\Users\DJGD0\Entornos20> █
```

6. Upload of files

```
PS C:\Users\DJGD0\Entornos20> git merge feature-update
Already up to date.
PS C:\Users\DJGD0\Entornos20> 
```

To upload the files to github we use "**git merge feature-update**".
